

JOURNAL OF
CHINESE SOIL AND WATER CONSERVATION

Vol. 45, No.2

June 2014

CONTENTS

Papers

1. A Study on Seepage Erosion Behavior within Two Lay-ers using Permeability Tests and FDM ----- *Yu-Ting Su, Ming-Lang Lin* ----- 77
2. Assessment of The Location of Potential Shallow Slope Failure with Soil Depth and Vertical Soil Structure Data ----- *Meng-Chun Chan, Wei-Li Liang* ----- 85
3. Study on The Mechanical Behavior of Gravel Formations Using Numerical Methods ----- *Kuang-Tsung Chang, You-Hsu Chen, Min-Chieh Cheng* ----- 95
4. Annual Rainfall Erosivity Index Estimation Based on Daily, Monthly and Annual Precipitation ----- *Ming-Hsi Lee, Huan-Hsuan Lin, Yu-Ting Chan* ----- 103
5. The Characteristics of Dip-Slope Landslides Induced by The Groundwater in Free-End Experiments ----- *Su-Chin Chen, Kuan-Han Chen, Chun-Hung Wu* ----- 110
6. Evaluation of Priority Order for The Landslide Treatment Using Biodiversity Index in A Watershed ----- *Tien-Shui Chen, Cheng-Yu Lin, Shih-Hua Ho, Chao-Yuan Lin, Yaw-Long Yang* ----- 119
7. NETSTARS Improvement with Pier Scouring - A Case Study of Pa-Chang River ----- *Hsiao-Wen, Wang, Hui-Ming, Hsieh, Guan-Ming, Luo* ----- 128

Technical Notes

1. Raked Pile Behavior Modeling for Analyzing Resistance of Slope Movement ----- *Chien-Yuan Chen, Chi-Xun Tsai* ----- 140
