

JOURNAL OF
CHINESE SOIL AND WATER CONSERVATION

Vol. 49, No.3

September 2018

CONTENTS

Papers

1. Risk Assessment and Adaptation Strategies for Dazhong Village Landslide No.1 in Yilan County, Taiwan----- *Cheng-Yang Hsiao, Bor-Shiun Lin, Cheng-Nung Lai, Chia-Wei Wu, ----- Chao-Chin Pai, Chun-Yi Wu, Zheng-Yi Feng*---- 131
2. Determination of Landslide Susceptibilities Using UAV-Borne RGB and NIR images: A Case Study of Shenmu Area in Taiwan ----- *Yu-Shen Hsiao, Ta-Hsien Chung, Su-Chin Chen, Jung-Chieh Chang*---- 142
3. Analysis of the Landslide Characteristic and Building the Landslide Risk Model for Renai Township, Nantou ----- *Chun-Hung Wu, Jun-Tai Hunag, Tingyeh Wu*---- 154
4. Effects of Anisotropic Soil Hydraulic Conductivity on Slope Stability Using a Coupled Hydromechanical Framework ----- *Yi-Jin Tsai, Hsin-Fu Yeh*---- 167
5. Assessing River Morphology and Torrent Division Point of Main Basins in Taiwan ----- *Fang-Yi Chu, Chun-Yi Wu, Shiuan-Pei An, Shih-Hsih Lin, Su-Chin Chen*---- 178

Technical Notes

1. A Study of Landslide Image Classification through Data Clustering using Bacterial Foraging Optimization ----- *Shiuan Wan, Shih-Hsun Chang, Tein-Yin Chou, Chen Ming Shien*---- 187
