

JOURNAL OF
CHINESE SOIL AND WATER CONSERVATION

Vol. 53, No.1

March 2022

CONTENTS

Papers

1. Shigang Dam Removal and Water Storage Alternatives to Restore the Dajia River Morphological Natural Evolution -----
----- *Su-Chin Chen, Feng-Nan Chang, Yen-Yu Chiu, Hao-Yuan Cheng*----- 1
2. Construction and Analysis of River Basin Districts, Longitudinal Segments, and Morphological Groups for Streams in Taiwan -----
----- *Chia-Ning Yang, Cheng-Wei Kuo, Mu-Ti Yu, Su-min Shen*----- 13
3. Detecting Landslides in Satellite Images Using Deep Learning Neural Networks-----
----- *Ying-Jung Chen, Shaou-Gang Miaou, Yu-Hsuan Hsu, Ying-Cheng Lin*----- 25
4. Monitoring Soil Erosion Changes on Slopes Through SBAS-InSAR Technology -----
----- *Yu-Chi Hsieh, Yu-Shen Hsiao, Yu-Hsuan Cho*----- 35
5. Quantitative Differences in Water-Resource Conservation Capacity Associated With Land-Use Changes in the Zhuokou River Watershed-----
----- *Jen-Yang Lin, Chun-Wei Tseng, Ci-Jian Yang, Chih-Wei Chuang*----- 43
6. Substance Flow Analysis of Nitrogen in a High-Emission Urban Area: A Case Study of Taipei, Taiwan -----
----- *Chong-En Li, Nae-Wan Kuo*----- 54
