

JOURNAL OF  
CHINESE SOIL AND WATER CONSERVATION

Vol. 53, No.3

September 2022

CONTENTS

Papers

1. Application of Raspberry Shake 3D Geophone for Monitoring Slope Disasters -----  
----- *Hsin-Yu Chen, Ching-Jer Huang, Shu-Chin Chen, Wei-An Chao, Che-Ming Yang*---- 139
2. Estimation of Groundwater Drawdown Due to Subsurface Horizontal Drains for Large  
Landslides -----*Der-Guey Lin, Yu-Po Huang, Eugene Choo*---- 146
3. Relationship Among Yield Stress, Slump, and Slump Flow of Sediment Slurries -----  
-----*Litan Dey, Ji-Shang Wang, Chyan-Deng Jan*---- 167
4. Feasibility Evaluation of Soil Water Index Applied to Large-scale Landslide - A Case  
Study of T002 Landslide in Chuchi Township, Chiayi County -----  
----- *Yi-Jun Liu, Yu-Hsin Chang, Rong-Jun Chen, Hsiao-Chia Yen, Su-Chin Chen*---- 176
5. Quantitative Methodology for Stream Habitat Assessment -----  
----*Shu-Yuan Chen, Jaw Dian Chen, Chia-Chi Liang, Tung-Jer Hu, Ching-Kuang Chung*---- 190

Technical Notes

1. Time Series Analysis of Landslide Volume Along Alishan Expressway – The Example of  
Kilometers 34 to 97 -----*Wan-Tsung Wu, Chien-Yuan Chen*---- 202
2. Application of Ecological Database in Ecological Check of Soil and Water Conservation  
Projects ----- *Tzu-Hsin Yang, Wei-Ling Su, Ming-Yuan Wang, Yuan-Chuan Weng*---- 213
