摘 要 總統於 2010 年 12 月公告制訂地質法,首度建立我國地質調查及資料管理制度,同時建構起地質科學與國土經營管理、土地開發規劃及地質災害防治間的橋樑,依據 2011 年 2 月 1 日經濟部核定「101 至 104 年新興中長程計畫建構完善的地質知識服務網絡」計畫,預計為臺灣的地質調查業務成果搭建整體性的傳播網絡,使得政府投資建置的地質資源,以最有利於社會利益為原則,傳達給社會大眾,並彰顯出我國推動國土保護、重視全球環境變遷議題之企圖心,進而持續投注相關資源於防災對策研擬與生活環境教育。本計畫將以 1.知識創新行銷,貼近民眾生活、2.建構地質網絡,凝聚目標族群、3.在地諮詢服務,回饋專業知識,為整體推動目的,進行為期四年之計畫推廣,期達成具體之綜效。而為建構完善地質知識服務網絡,本計畫將從生活開始、從民眾出發,第一年的創新跨界地質行銷,拉近與民眾間的距離;第二年地質生活化,深化多方地質知識;第三年地質教育主題化,主題知識推廣;第四年全臺地質生活圈,民眾主動回饋分享知識;將被動推廣到主動回饋、由地質生活化到專業知識教育,以此拓展地質知識網、打造地質生活圈。

關鍵詞:地質法、地質知識網。

Promotion and Development Plan of the geological knowledge network

ABSTRACT Geological Act established our geological survey and data management system, constructed Geological Sciences and Land business management, as a bridge between the land development planning and prevention of geological disasters. According to the February 1, 2011, Ministry of Economic Affairs approved 101-104 year in the construction of a long-range plan. This project will be a knowledge innovation marketing, get close to people's lives, 2. Construct geological network cohesion target groups, 3. Consult services to the ground, feedback expertise to promote the overall purpose, for a period of four years the promotion of the project. The purpose of first year is to narrow the distance between people; the second year is to deepen multi geological knowledge; the third year is to promote geological education theme, the theme of knowledge; the fourth year is to promote the active feedback.
