

JOURNAL OF
CHINESE SOIL AND WATER CONSERVATION

Vol. 57, No.2

June 2026

CONTENTS

Papers

1. Examining the Characteristics of Shallow Groundwater Flow in a Slope and a Floodplain Through Groundwater Aeration Sound ----- Weicheng Wu, Wei-Li Liang-----57
2. Differences Between Traditional and UAV-Based Surface Grain Size Surveys and Their Implications for Hydraulic Parameter Estimation -----
----- Yi-Cheng Liu, Chuan-Shun Yen, Hui-Pang Lien-----67
3. Effects of Organic Amendments on Surface Runoff and Sediment Yield of Selected Erosion-prone Soils on Varying Geologic forMations at a Laboratory Scale-----
----- Agim Leonard Chimaobi, Igwe Charles Arinzechukwu,
----- Ihem Emmanuel Emengamgha, Egboka Nzube Thaddeus,
----- Chukwu Ebelechukwu Daniel, Aririguzo Bernadine Ngozi,
----- Ogu Christian Ekene, Nwankwo Vivian Ijeoma, Ekejiuba Chidiebere Igwegbe,
----- Osisi Adaku Felicia, Afangide Akaninyene Isaiah, Okoro Linus Chidi-----77

Technical Notes

4. Analysis of River Sediment Transportation and Sediment Yield in the Shihmen Reservoir Watershed ----- Tai-Li Lin, Kean-Yip Chong, Jen-Yang Lin, Chi-Feng Chen-----88
