JOURNAL OF

CHINESE SOIL AND WATER CONSERVATION

Vol. 57, No.3 **September 2026**

CONTENTS

Papers

1. Effect of Slope Soil Organic Carbon on Sediment Delivery: A Case Study of Dongmen Creek, Pingtung ---------- *I-Chia Chiu, Bing-Shyan Lin, Wei-F Lee*------99

2. Development and Application of Design Principles for Stilling Basins Downstream of Permeable Check Dams ----- *Hsun-Chuan Chan, Yue-Ying Li, Wen-Huil Liao, Po-Wei Lin*---- 111

3. Assessing Spatio-temporal Changes in Ecosystem Service Values in the Lanyang River Basin through Scenario-Based Simulations ----- *Ching-Wen Chou, Shyue-Cherng Liaw*---- 125

4. Comprehensive Assessment of Surface Deformation Across Taiwan by Using a Small Baseline Subset Interferometric Synthetic Aperture Radar Constrained by the Global Navigation Satellite System ---------- *Yu-Shen Hsiao, Yu-Hsuan Cho, Yun-Ze Xiao*---- 138
